

# Create IBM Watson IoT Platform & Device

Date	10 November 2022
Team ID	PNT2022TMID31884
Project Name	Project - <b>Personal Assistance for Seniors Who Are Self-Reliant</b>

## CREATION OF IBM WATSON:

The screenshot displays the IBM Cloud console interface for the 'Internet of Things Platform-4p' resource. The top navigation bar includes the IBM Cloud logo, a search bar, and links to 'Catalog', 'Manage', and 'HARI PRIYA's Account'. The main content area features a large graphic of a central square with four circular nodes connected by lines, representing the IoT platform. To the right of the graphic, the text 'Let's get started with IBM Watson IoT Platform' is displayed, followed by a description: 'Securely connect, control, and manage devices. Quickly build IoT applications that analyze data from the physical world.' Below this, there are two buttons: 'Launch' and 'Docs'. A section titled 'Ready for the next level?' shows the 'IBM Watson IoT Platform Journey' with three stages: 'Lite' (checked), 'Non-Production', and 'Production'. The bottom of the screen shows a Windows taskbar with various application icons and a system tray indicating the time as 9:23 AM on 11/18/2022.

## ADDING DEVICE

IBM Watson IoT Platform
